

Claudia Sáez

Software Developer focused on UX and accessibility.
I build intuitive, engaging digital experiences using modern frameworks like React and Tailwind.

Relevant Experience

Software Developer – Fractal Development

Jan 2025 – Oct 2025

- Worked on blockchain-based web solutions, integrating smart contracts with React and Node.js applications. Improved App performance and enhanced user experience.
- Collaborated with clients to define technical requirements, propose solutions, and maintain scalable, maintainable codebases.

Frontend Developer – Freelancer

April 2023 - Dec 2023

- Collaborated with various companies to design responsive, accessible, and visually appealing user interfaces
- Implemented those designs on the front-end with React + TypeScript using Material UI and Tailwind CSS
- Ensured seamless UX/UI alignment through close coordination with clients

Frontend Developer – JFX

Dic 2021 - Febr 2023

- Developed, shipped and maintained production-level websites using JavaScript, jQuery, HTML, and CSS/Sass
- Performed quality assurance tests on various sites to ensure cross-browser compatibility and mobile responsiveness

Web Designer – Kreativlab

Oct. 2020 - Nov. 2021

- Designed UI mockups and prototypes with (Figma, Illustrator, Adobe XD)
- Used storyboards, process flows and sitemaps to illustrate design ideas
- Created and ran usability tests to explore and validate design alternatives and troubleshoot UX problems

Graphic Designer – CREA7IVE

Dec. 2019 - Sep. 2020

- Created original graphics concepts through in-depth user research and collaboration with colleagues across multiple departments
- Produced low, mid, and high-fidelity wireframes and prototypes
- Iterated designs based on user feedback and data-driven decision making

Web Designer – MAD AGENCY

Febr. 2019 - Dec. 2019

- Designed and developed WordPress websites for an e-commerce startup
- Delivered branding, design systems, and web solutions aligned with stakeholder goals
- Collaborated with designers and engineers in pro-bono initiatives, applying design expertise to support community organizations
